GOODYEAR RUBBER PRODUCTS

APPLICATION: For use with push-on fittings at working pressures of 300 psi. For low-pressure hydraulic and pneumatic systems such as shop air systems, general industrial, maintenance and automotive assembly applications. Nonconductive, minimum electrical resistance, greater than one (1) megohm per inch of hose length at 1000 Volts DC. MSHA approved covers.

HOSE

Rolling lobe air springs incorporate a piston which allows the flexible member to roll along the piston's surface.

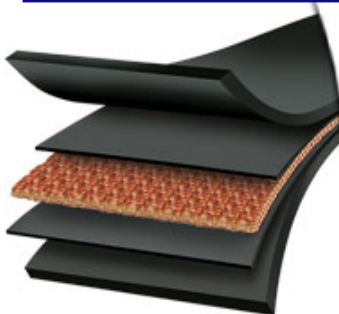

AIR SPRINGS

- Ride spring for trucks, trailers, and buses
- Actuators and isolators for industrial applications

The new ConquestXP™ primary crusher belt has the power to keep your bottom line on its shoulders.

BELT

Backed by the power of Fortress™ Technology, an innovation in rubber compounding and reinforcement technology, ConquestXP™ is built to excel in impact and puncture resistance. Including one-ply 330, one-ply 440, two-ply 660 and two-ply 880, and available with Goodyear Engineered Products compounds like Defender®, Stacker®, Survivor® and Global X®, this belt is ready for anything you can throw at it. When good just isn't good enough, start a Conquest.

How We Stack Up Against the Competition
